Nov 23, 2025	Mathematics Mock Interview	Alex Yan
Nov 29, 2025	Group Check-in/Reflection Session	Organiser
Nov 30, 2025	Mathematics Mock Interview	Sizhe Pan

Introductory Session

Participants will be briefed on details about the upcoming mock interview sessions, including instructions for any pre-interview tests beforehand, as well as details of the interview session itself.

Mock Interviews

The mock interviews will be conducted by different Cambridge mathematics undergraduates/alumni. These interviews are carefully designed based on each interviewer’s individual experience at their own interview.

Group Check-in Sessions

These are sessions where the organiser will check in with students about how they are doing, any feedback and things to improve for the upcoming sessions, as well as any help they might require to maximise their ability to benefit from the rest of the programme.

*All sessions will be conducted online. Instructions to join will be sent to participants before and during the introductory session.
The exact times for each session will be published imminently. Please keep an eye on this page for updates.*

For all enquiries, please email the organiser at hueyslai@gmail.com.
